

A Level Chemistry Book list Year 13 2015 2016

You will need to buy your own chemistry text book this year here are 4 recommendations for you to use for your independent study, I recommend you get them off Amazon this seems to be the cheapest place to get them

A level Chemistry: E.N Ramsden

ISBN: 0748752994

Advanced Chemistry: Clugston / Flemming

ISBN: 01919146330

Chemistry in Context: Hill / Holeman / Hill

ISBN: 0174482760

Physical / Industrial Chemistry: Matthews

ISBN: 0521423325

Organic /Inorganic: Matthews

ISBN: 0521423333

Year 13 Specific reading tasks

OCR A2 Chemistry Text Book

Autumn term: topic covered F325 complete by 1.12.15

JMT: read and make extra notes on the following section read and makes notes on the following sections Unit 2 Module 2 Energy and Unit 2 Module 3 Transition Elements include the exam style questions at the end of each unit to self-assess your understanding

NRB: read and makes notes on the following section Unit 2 Module 1 Rates Equilibrium and pH include the exam style questions at the end of each unit to self-assess your understanding

Spring term: topic covered F326 complete by 23.3.16

JMT: read and makes notes on the following section Unit 1 Module 2 polymers and synthesis and Unit 1 Module 3 Analysis include the exam style questions at the end of each unit to self-assess your understanding

NRB: read and makes notes on the following section Unit 1 Module 1 Rings, Acids and Amines include the exam style questions at the end of each unit to self-assess your understanding

Also attached to this email are copies of documents for some extra reading to be completed with unit 1 module 2 on synthesis and analysis I have put them also on the edmodo group for this class and attached them to this email
